INTRODUCTORY

The Inter-State Directory Company, of Indiana, take this opportunity of thanking the good people of Morgan County, Indiana, for their hearty support, encouragement, and assistance in making it possible for this Company to put out one of their Complete City and County Gazetteers of Morgan County.

Every live, up-to-date and hustling city needs a new Directory every two years, and Martinsville is in that class, and we take pleasure in stating that we will return in due time to compile a new book when needed.

Our Company employs only experienced men, and all work is taken up from original information, and no revision of old directories.

When information is needed please consult the Inter-State Directory. Several of the Best Cities of Indiana have them. Always Reliable and full of information, and for this reason business men place their advertisements in them. See title page and index for further particulars.

We solicit your careful investigation, and assure you our next issue will be superior to this, as we are keeping pace, in the Directory business, with fast growing cities, where we publish.

We again desire to thank our patrons and the people of Martinsville and Morgan County for their assistance, kind treatment and support, both in a financial way and in securing data for this book. Yours sincerely,

INTER-STATE DIRECTORY CO.,
Marion, Indiana.

The Mechanical Accountant

Adds, Multiplies, Divides, Subtracts

AND IS ALWAYS CORRECT

THE MECHANICAL ACCOUNTANT will add up your Sales, Checks, Ledger Columns, Loose Leaf Work, Pay Rolls, Trial Balances, or anything else, in half the time you can. *Is the only adding machine having upper dials which show each item as added and prove the work as you go along.* It is not a cheap machine, costs $125.00 and worth it too. Used in United States Government and State Government offices and almost every business under the sun. You cannot appreciate the amount of time a MECHANICAL ACCOUNTANT will save you until you have operated it yourself. If you'll write us we will gladly send you a descriptive Catalog.

Steel Brains That Save Brains

You Can Use

THE CALCUMETER

The Standard Desk Adding Machine

On Your Desk to the Total Relief From Errors and Nerve-Racking Brain Strain

YOU need this machine in perfecting the accuracy of your business transactions, to secure the confidence of your patrons as to your absolute reliability. There is no other reliable and durable adding machine made that can be used in the same vision with the figures to be added, totally eliminating the tiresome movement of the eye back and forth from the figures to the machine. This insures correct registration and correct results without eye-strain. An absolute guarantee, with no "ifs," protects you for three (3) years. What more would you ask?

You can secure correct results on the CALCUMETER in less time than by mental addition, without brain or eye-strain. It is just the machine for your desk, and will fill a long-felt desire; there is no question about this.

The price is the lowest at which you can buy a thoroughly reliable, durable and serviceable adding machine, and its cost will be returned to you in time saved over mental addition and errors avoided within two months or less.

The CALCUMETER is made in several sizes, ranging from $15.00 to $30.00, according to capacity. Also made for adding fractions into whole numbers.

Send for Catalogue.

Beware of Directory Borrowers

If thou art borrowed by a friend,
Right welcome shall he be—
To read, to study, not to lend;
But to return to me;
Not that imparted knowledge doth
Diminish learning's store;
But books, I find, when often lent
Return to me no more.
